December 5, 1956

Now. Allen W. Dulles Director Central Intelligence Agency 2430 3. Street BY Weshington 25, D. C.

Dear Mr. Dulles:

Your latter of November 19, 1956, proposes the transfer to the Central Intelligence Agency of the Government Printing Office printing plant located in your administrative building.

The language of the proposed transfer is satisfactory to se and I bereby consur in and recommend approval by the Joint Constitute on Printing of the proposal contained in your letter of November 19, 1976, supported by America A. B. and C. Plance note that I have added approximately 377 items of machinery and equipment to America A and C. All of these items have been fully depreciated except item EGeO in America, which is for a resk that was manufactured in 1995 with \$150.09 still remaining to be depreciated.

Subject to approval of the Joint Committee on Brinting, and immediately thereafter, I suggest that representatives of the Central Intelligence Agency and the Government Printing Office apprise all exployees of the subject printing plant of the plan to transfer soutpol of the plant to the Central Intelligence Agency, at which time all exployees might be unged to accept transfer to the Central Intelligence Agency to provide uninterrupted service by that plant. The approximately 70 employees who accepted assignment from the Government Printing Office assagement, should be advised of their preregative to transfer to the Central Intelligence Agency rolls or return to the Government Printing Office. This would be in hamping with the policy of the Government Printing Office to insure that employees who were requested to accept assignment to the subject printing plant have their interests fully protected by the Government Printing Office.

The lists of supplies, etc., which would be transferred to the Central Intelligence Agency will be prepared by the Government Printing Office at the time of transfer of the plant.

Approved For Release 2009/01/08: CIA-RDP80R01731R000100020055-3

Hon. Allen W. Dulles

-2-

It is my opinion that the interests of the Government will be served best by transferring the operations of this plant to the Central Intelligence Agency in view of the impending relocation and your plan to esmeolidate this plant with other printing units now operated by your Agency.

Sincerely,

SIGNED

RADIGIO ELATTERENGER Public Printer
